

Mercury switch

New product introduction

Sealed type sensor can produce continuous on-off contact closures when in motion. Small size and can be installed in a little space. Can be activated under low current and voltage.

Glass tube has undergone special treatment and will not broken easily.

Application

Game machines and toys, Security systems, Electrical and electronic products, Personal security alarms, Vibration sensors, Car alarms.

Technical Specification

1. Maximum Switch Rating : 200mA
2. Electrical Life : 200,000 cycles Min.
3. Contact Resistance : 0.2 Ω Max.
(Measured at 45° tilt)
4. Differential Angle : 5° Max.
5. Solder Temperature : Manual soldering
350°C, 3~5 seconds.
6. Operating Temperature : 0°C~100°C
